47, Ludgate Hill: August 1, 1853.

THE last fortnight has produced more than the average works of interest at this season of the year; and it will be found our publishers' lists present a goodly show when it is considered how few announcements are yet made for next season. Amongst the present new books the following are worthy of notice:—Austin's "Lives of the Laureates." Lady Tenison's "Castile and Andalucia," a superbly illustrated book of adventure and descriptive travel. Mrs. Colin Mackenzie's "Mission and Cantonment Life." "The Annual Register" for 1852. Reade's "Australian Gold Fields," a well-illustrated and apparently thoroughly satisfactory work on the subject from one who has both means and ability to describe what he saw and experienced. Mrs. Moodie's "Life in the Clearings," &c.

Messrs. Longman have nearly ready a tenth edition of Colonel Hawker's "Instructions to Young Sportsmen." A second edition of Dr. Brewer's "Poetical Chronology." "A Child's History of the World," by Mrs. Percy Sinnett. "Conversations on Geography," by Lady Falmouth, uniform with Mrs. Marcet's "Conversations on the Sciences." Also, preparing for publication, "An Historical and Geographical Atlas, Mediæval and Modern," edited by the Rev. J. Brewer, and the Maps engraved by E. Weller.

Mr. Oliphant, the author of the "Visit to Nepal," has a work in the press recording a travel on the Russian shores of the Black Sea, in the autumn of last year.—Mr. Hawthorne, who arrived in Liverpool last week, and has entered on his official duties, will publish his long-announced "Tanglewood Papers" first in this country, through Messrs. Chapman and Hall, who have likewise arranged for the publication of "The Old House by the River," the work of another American author of whom report speaks well. In spite of the comparative slow sale of the "Key to Uncle Tom's Cabin," a very good-looking 1s. 6d. edition has just been printed with the author's authority.

Messrs. Griffin and Co. have just published a second edition of Schœdler and Medlock's "Book of Nature," with an index of 5000 references.

Messrs. A. Hall and Co. wish us to state, with reference to the advertisement in our last "Circular" of Sernau and Stephens' edition of "Gervinus' Introduction to the History of the 19th Century," that, although it bears their imprint, it was forwarded to us from the country without their knowledge or authority.

The additions to Mr. Bohn's "Libraries" for August comprehend the 3d edition of "Foster's Lectures" to the "Standard;" the first vol. of the "Comedies of Aristophanes" to the "Classical;" the 2nd vol. of "Matthew of Westminster's Flowers of History" to the "Antiquarian." Messrs. Chapman and Hall are publishing a useful serial for reference, chronicling the details of the various legislative measures under consideration of Parliament, entitled "The Constitutional." The article in the "Edinburgh Review," on the Relations between the Ottoman Empire and the States of Europe, has been judiciously selected for the next part of the "Travellers' Library," under the title of "Turkey and Christendom."

Ingram, Cooke, and Co. have as usual an attractive monthly list of additions to their several series, comprehending a "Life of Alexander Pope" (uniform with which the Works will eventually appear, in 3 vols.); "A Russian's Sketches of Life in the Caucasus;" "Whittington, a Tale of the Vintners' Company;" and in their "Universal Library," Voltaire's "Life of Charles XII." and the "Life of Lord Herbert of Cherbury." They will also shortly publish "Fern Leaves from Fanny's Portfolio," a work by an American débutante of much promise, generally reported to be a sister of N. P. Willis. Mr. W. Jerdan is also editing for the same house an edition of "Yankee Humour and Uncle Sam's Fun."

## THE HIGHEST STYLE OF ARTISTIC LITHOGRAPHY

Will be found in the Works produced by

## DAY AND SON, Lithographers to the Queen.

Landscapes, Architecture, Shipping and Figure Subjects—Portraits direct from Life on Stone, or from Paintings, Drawings, or Daguerreotypes—Medical and Scientific Subjects, executed in a superior style peculiar to this Establishment. Calotypes copied.

The large Staff of Draughtsmen required by Messrs. DAY and SON to execute the

**MAPS, PLANS, AND SECTIONS, DIAGRAMS, &c., &c.**  
FOR HER MAJESTY'S STATIONERY OFFICE,

Offers to solicitors, engineers and surveyors, stationers and printers, throughout the country, great advantages for the rapid and economic execution of their Lithography. If required, a plan received by the morning post may be lithographed, and despatched by the return post.

To meet the growing demand upon

**LITHOGRAPHY FOR COMMERCIAL PURPOSES**, Messrs. DAY and SON have just erected the largest premises for the purpose in the world. In soliciting orders from Manufacturers and others for

**PATTERN-BOOKS, SHOW-CARDS, LABELS, &c.**

And every other Description of Lithography and Colour Printing, Messrs. DAY and SON promise a style of work of unequalled excellence, with economy and rapidity of execution. The smallest consumers of the productions of Lithography in any part of the Kingdom should apply to Messrs. DAY and SON for estimates, and it will be found, owing to the extent of this Establishment, that its manifold advantages, viz. superiority of work, great speed, and moderate charges, can be secured with satisfaction and saving to the customer.

## PRINTING IN COLOURS,

As perfected and practised by Messrs. DAY and SON, has assumed a position hitherto unattained for artistic excellence, rapidity of execution, and economy of production. The first and only perfect realization of a painting in colours, "The Blue Lights" (after Turner), executed at this establishment, secured for itself the designation of a Painting Print. Other examples of great merit, more particularly illustrating rapidity and economy of production, combined with artistic excellence, will be found in the three important works by

**MATTHEW DIGBY WYATT, ESQ.**

Namely, "The GEOMETRICAL MOSAICS OF THE MIDDLE AGES," "METAL WORK and its ARTISTIC DESIGN," and "The INDUSTRIAL ARTS OF THE NINETEENTH CENTURY."

These works, although elaborately printed in colours and gold, have been sold at the price of uncoloured works. The last-named, consisting of 160 plates, issued in Forty-eight parts of four plates, proves the possibility of adapting Chromolithography to periodical works—to book plates requiring long numbers cheaply and quickly—and to geological or other coloured maps.

Messrs. DAY and SON are prepared to estimate and undertake works of any extent and to meet every requirement as to quantity and speed, or necessity as to price.

## STEEL AND COPPER-PLATE PRINTING OF EVERY DESCRIPTION.

**LADIES**, Amateurs of Drawing, will find the reproduction by themselves of their own Sketches, by means of Lithography, a most delightful occupation for leisure time. Materials and instruction can be had of

**MESSRS. DAY AND SON,**

**LITHOGRAPHERS TO THE QUEEN,**
